

Thule Sprint 569

The Thule Sprint bike carrier combines convenience and patented safety technologies, making it the most complete fork mount carrier for maximum bike protection.

1. The AcuTight knob “clicks” when optimal hold is reached controlling the torque going into the bike frame and ensuring the bike is secured to the rack
2. Road Dampening Technology (RDT) elastomers are imbedded in the rack attachments to absorb road shock and vibrations
3. Ratcheting wheel strap with RDT quickly and easily secures the rear wheel without damaging the rim
4. Wheel chock support for increased rear wheel security and stability
5. The unique telescoping wheel tray allows for custom bike fit and provides greater hatch clearance
6. Lockable – bike to bike carrier, bike carrier to load carrier (locks included)
7. T-track adapters (20x20mm) are included for mounting on Thule WingBar Edge, Thule WingBar, Thule SlideBar, and Thule AeroBar
8. Preassembled - no tools required
9. City Crash tested and TÜV-GS approved
10. Does not support bikes with through axles
11. Does only fit load carriers with t-track slots

THULE NUMBER
569000

ADDITIONAL ACCESSORIES / OPTIONS

- Thule Wheel Carrier 545-2
Carrier for the front wheel with regular axle or wheels with disc brakes.
- Thule Wheel Bag 563XL
Specially designed, high-quality bag for the front wheel.
- Thule Cable Lock 538
A 180 cm plastic coated steel cable to secure your bike to the bike carrier for extra theft protection.
- Thule Wall Hanger 9771
For functional storage of bikes and bike carriers. Loads up to 40 kg.
- Thule “One-Key-System”
Very practical if several lockable Thule products are used (e.g. box, roof rack, ski carrier etc.). All locking-barrels will be replaced so only one key will fit all products. (544 = 4 cylinders + 2 keys, 596 = 6 cylinders + 2 keys, 588 = 8 cylinders + 3 keys, 452 = 12 cylinders + 4 keys).
