

## Thule UpRide 599

Universal upright bike rack with no frame contact, for fast and secure mounting and maximum frame protection.

1. No bike frame contact is made as the hook securely grabs the front wheel
2. Suitable for bikes with carbon frames
3. Versatile design accommodates bikes with non-traditional frame designs, rear suspension, and bottle cages
4. Simple interface for switching carrier from one side of your car to the other
5. Ratcheting wheel strap quickly secures back wheel to tray
6. Fits most 20–29" wheel bicycles with tires up to 3" wide (up to 5" with Thule UpRide Fatbike Adapter, sold separately)
7. Maximum bike weight up to 20 kg
8. Locks the bike to the bike rack and the bike rack to the vehicle (locks included)

### ADDITIONAL ACCESSORIES / OPTIONS

- Thule UpRide Fatbike Adapter 5991  
Upgrade kit for carrying fatbikes on the Thule UpRide bike rack (wheel size 3-5").
- Thule T-track Adapter 889-1  
An adapter for fitting the Thule UpRide bike rack directly into the T-track (30x24 mm) of some BMW and Renault original load bars.
- Thule Bike Rack Around-the-Bar Adapter 8898  
An around-the-bar adapter for fitting the Thule UpRide bike rack on square bars or round aluminium load bars.
- Thule Cable Lock 538  
A 180 cm plastic coated steel cable to secure your bike to the bike carrier for extra theft protection.
- Thule Wheel Strap Locks 986  
A locking kit to lock the bike rack's wheel straps for extra theft protection.
- Thule "One-Key-System" Very practical if several lockable Thule products are used (e.g. box, roof rack, ski carrier etc.). All locking-barrels will be replaced so only one key will fit all products. (544 = 4 cylinders + 2 keys, 596 = 6 cylinders + 2 keys, 588 = 8 cylinders + 3 keys, 452 = 12 cylinders + 4 keys).
